VOLUNTEERING

AboCoders Academy
Frontend development Tutor – (2022)

people (both Educators and Students) on how to integrate technology in the teaching and learning process.

1. Google Technologies Summit: A day summit on how to integrate Google tools in teaching and learning process for Hilltop Model School teachers. The tools we explored are Chrome, Google meet, Google Classroom, Youtube, Google Maps, Google Play store and Google Forms. – 2024
2. SSTE Go Digital Bootcamp: A 4-days bootcamp that trained SSTE students on digital literacy skills including computer basics, the Internet and Microsoft packages. The students were able to create a letter head, analyze simple data and create PowerPoint slides describing their department. – 2025
3. Digital Transformation Program: A virtual event on how to build online presence and online security awareness. Here participants learnt about social platforms to build a solid presence and how they can avoid scams and frauds during the insightful session from experts. – 2025
